PROFILE

Student majoring in Informatics Engineering at Esa Unggul University with experience as a web developer and expertise in the field of data analysis in general. Mastering Python, PHP, Javascript, C++, SQL, Laravel programming languages; and experienced in developing innovative and efficient web solutions, as well as ensuring optimal user experience. I am always open to new opportunities in this industry and ready to contribute to challenging projects. Capable of working as a team and individually, and committed to collaborating with stakeholders to understand needs and provide solutions that exceed their expectations. Have high enthusiasm in exploring the latest technology and techniques; actively improve capabilities to be at the forefront in this dynamic field.
